

EMIRATES CONFORMITY ASSESSMENT SCHEME (ECAS)
HALAL CERTIFICATION - MIDDLE EAST

The Halal food market is currently worth USD 650 billion and is set to grow substantially over the next 5 - 10 years. With 1.6 billion Halal consumers, the Halal market is considered to be growing and developing worldwide.

ESMA has published a Regulation of Control over Halal Products which aims for safe halal food and products handling in any of the stages of the supply chain.

You can take advantage of a globally applicable and transparent Halal certification standard, designed to help organizations meet the demand for authentic, safe and affordable Halal products to be sold within the UAE.

In-line with ESMA's implementation of UAE Cabinet Resolution No. 10 of 2014, SGS Gulf Ltd has been approved by Gulf Accreditation Centre (GAC) to issue certificates for execution of Halal certification activities.

License for the use of National Halal Mark for Halal Products can be obtained from ESMA.

The Technical Regulation applies to all Halal Products including production systems and services associated with the products.

WHY SGS?

- SGS is the world's leading inspection, verification, testing and certification company. SGS is recognized as the global benchmark for quality and integrity. With more than 90,000 employees, SGS operates a network of over 2,000 offices and laboratories around the world.
- As the world's leading certification body in the food industry, SGS audits to ensure compliance with global standards such as FSSC 22000, BRC, IFS, SQF, HACCP.
