

IATF16949 Application and review – remote locations

Note:

- If your site has a Remote Support Location (RSL) that is located at your address that also supports other manufacturing sites, that should be included in your scope then include this below
- If SGS are to audit your Remote Support Location (RSL) or Stand-Alone Remote Support Location (SA-RSL) list below for each
- Activities shall be in line with annex 2 in IATF16949 rules 6th
- If the RSL / SA-RSL also supports other manufacturing sites within your organisation & require SGS to audit these interactions list all other site names, address & activity
- If the SA-RSL(s) are audited by another CB, please make reference to the file names of the reports and add them as attachments, and complete sections below
