

# Machinery Safety

POWER AWARENESS TRAINING

[sgs.com](https://www.sgs.com)

**SGS**

# Introduction

SGS provides training to help understand the obligations laid out by the Provision and Use of Work Equipment Regulations 1998 (PUWER), by enabling an understanding of how to assure work equipment is safe for use and the risks posed by work equipment are managed appropriately.

The aim is to lessen risks associated with the installation, use, and maintenance of work equipment and by doing so this course explains how to conduct a risk assessment for the equipment and establish which control mechanisms should be put in place in line with the hierarchy of control. Our expertise will provide you with useful health and safety knowledge that can be utilized for governing work equipment.

Upon completion, the delegate will be able to demonstrate the application gained through in-depth knowledge of the regulations required to complete PUWER Assessments.

## Content

- The Regulation
- Suitability & Assessment
- Maintenance
- Instructions & Training
- Conducting a PUWER Inspection
- Identify dangerous parts of the machinery
- Controlling risk
- Practical application

## Target learner

- Maintenance Teams
- Plant Engineers
- Technical Engineers
- Designers
- Safety Specialist
- Machine Manufacturers

# Learning outcomes

- Identify the suitability of equipment for its intended task
- Develop equipment safety principles and how to control or reduce risks
- Understand PUWER legal duties
- Apply PUWER inspection and assessment knowledge
- Understand the legal duties of equipment manufacturers
- Discover the essential knowledge and skills needed to ensure workplace safety with PUWER
- Build a credible and effective process to maintain work equipment effectively

## Industries covered

- Manufacturing
- Food and Beverage
- Automotive
- Oil & Gas
- Metal forming
- Pharmaceutical
- Waste Recycling
- Plastics
- Chemical
- Mining
- Electronics
- Renewables
- and more

## The SGS commitment

We strive to deliver outstanding value at every step of your training in being committed to add value to your work by providing:

- Rapid turnaround time
- Value-based pricing
- Technical assistance
- Key account management
- Accurate and timely reporting
- Quality and trusted test results
- In long-term partnerships our input will increase the return on your investment
