

Qatar Product Conformity Assessment Program Food & Beverages

Are you exporting to Qatar?

Importation of Food & Beverage Products* to Qatar now requires a Certificate of Conformity

To ensure the safety and quality of food products entering the Qatar market, the Ministry of Public Health - Food Safety Department (MoPH-FSD) in the State of Qatar has implemented the Certificate of Conformity (CoC) program. Conformity assessment verifies products' compliance with the requirements of applicable standards and technical regulations as per the destination.

At SGS we help trade navigate through the complex world of regulatory & safety requirements covering global marketplaces including e-commerce & conventional businesses. We are recognized as the global benchmark for sustainability, quality and integrity. Our 99,600 employees operate a network of 2,600 offices and laboratories around the world.
