1

COMPLETE TRUST

SGS is the world's leading inspection, verification, testing and certification company. Recognised as the global benchmark for quality and integrity, we employ more than 75,000 people and operate a network of over 1,500 offices and laboratories around the world. We are constantly looking beyond customers' and society's expectations in order to deliver market leading services wherever they are needed.

As the leader in providing specialised business solutions that improve quality, safety and productivity and reduce risk, we help customers navigate an increasingly regulated world. Our independent services add significant value to our customers' operations and ensure business sustainability.

OUR MOST IMPORTANT ASSETS

Our People

The unrivalled expertise, experience and commitment of our people make them our greatest asset. We actively seek out professionals who are specialists in their field and we combine this with a deep understanding of our clients' needs.

Our Expertise

In the highly specialised fields in which we work there is no substitute for expertise. We combine rigorous training with continuous improvement. We draw on the best thinking available to ensure we are always justified in our claim of being real experts.

Our Commitment

Commitment is easy to claim yet hard to put into practice. At SGS we demonstrate our commitment every day. We invest heavily in training people to deliver the best products and services. As a company, we live up to the highest ethical standards. These values are the foundation upon which SGS has built its worldwide reputation as a trustworthy partner

There are no limits to the situations, circumstances and markets in which SGS can provide services, data and information. To ensure easy access to our professionals, we have divided our activities into a number of business sectors

- Agricultural Services
- Minerals Services
- Oil, Gas and Chemicals Services
- Automotive Services
- Life Science Services
- Industrial Services
- Systems and Services Certification
- Governments and Institutions Services
- Consumer Testing Services
- Environmental Services

PARTNERING WITH SGS GUARANTEES YOU ACCESS TO UNPARALLELED KNOW - HOW AND FACILITIES. WE ELIMINATE UNCERTAINTY, ENHANCE MUTUAL CONFIDENCE, AND OFFER YOU THE FREEDOM TO CONCENTRATE ON THE THINGS THAT REALLY MATTER: THE GROWTH OF YOUR CORE OPERATIONS AND THE PROFITABILITY OF YOUR ENTERPRISE.

2

ASSURE LIFETIME ASSET INTEGRITY

Integrity, safety and reliability are major concerns to owners, operators and investors of industrial facilities. Technical risk can impact commercial success. Industrial Services is a global service provider for technical verification, inspection, testing and conformity assessment, instilling confidence to clients.

We ensure that our customers' installations, material, equipment, facilities and projects meet all quality and performance requirements, whether they are regulatory, voluntary or customer based.

We provide our customers with all objective information they need to effectively assess performance, enabling them to make better and faster decisions. From design through to operation, for all industrial installations and equipment, in the most extreme conditions – all of our services aim at ensuring availability, safety and reliability of our customers' assets, resulting in the sustainability of their business operations.

Industrial Services provides technical solutions that create added value for our clients and help executing their growth strategies, whether in existing local or in new geographical markets. SGS is actively involved in a very broad range of services, such as

RELIABLE SERVICES FOR WORLDWIDE MARKETS

Industrial Services is your local partner with global experience and connections. Our strength lies in understanding our customers' operational challenges and adding value by providing dedicated solutions.

Industrial Services employs a multidisciplinary team of the best-qualified and recognised experts. We have decades of experience and some remarkable references in serving key industries.

OIL, GAS & PETROCHEMICAL

Our wide range of inspection, testing, certification and verification services add value to our customers involved in the oil, gas and petrochemical industry all around the world, including owners, operators, contractors, investors and equipment manufacturers. Our teams of engineers and technicians will find the solutions that best suit your needs, may it be related to exploration and production, pipelines, LNG terminals and carriers, refineries, storage tanks, petrol stations or any other asset type. Our integrated approach of specialised solutions and traditional services focused on the complete asset life cycle adds value to any project and improves the productivity of any existing facility.

POWER GENERATION & TRANSMISSION

The industrialised world relies on continuity of power generation and on efficient and safe power transmission.

SGS Industrial Services helps involved parties such as owners, operators, contractors, investors, insurers and equipment manufacturers to evaluate and manage the technical risks involved in the construction and operation of any power plant or transmission line. From design to construction and operation, SGS assists the industry with controlling the process and ensuring the quality and safety of the installation, as well as the health of its employees and other parties. Our experts bring in expertise and competence to help our clients to secure their investments and optimise operations, be it in nuclear, coal, gas, hydropower or renewable energy projects.

RENEWABLE ENERGY

Reliability of structures and wind turbines is essential for wind farms to perform successfully. A minor failure can cause unacceptable down time and loss. Independent certification and inspection provided by SGS can improve trust in projects and secure quality and certainty throughout the intended lifetime. This includes that the structural reliability is ensured, that the operation is safe, and that the availability of the wind turbines is as assumed. To assure quality of wind farms, SGS works as an independent project surveyor carrying out project certification, in-service inspections of existing assets and due diligence evaluation of wind farm projects – both onshore and offshore.

supply chain and ensure you that the best possible quality is guaranteed. SGS has the necessary accreditations to provide certification services for various markets and is also Notified Body for most European Directives.

BANKS & FINANCIAL INSTITUTIONS

Banks and financial institutions planning to invest in industrial projects need to identify and address the technical risks that can impact commercial success. SGS Industrial Services has the combined technical and economic expertise to understand the implications that these technical issues and risk can have on the financials of a project. Based on worldwide industry expertise, SGS offers a full range of services assisting lenders, investors and sponsors to manage project risk by providing independent expert advice and opinion. From due diligence through project monitoring to complete project management, we deliver the trustworthy technical information needed. Our engineers and technical experts provide specialist advice and information at all stages of the project finance or investment process, no matter the industry sector, geographical location or project stage.

TRANSPORTATION

As an operator in the transportation sector you are responsible for the safety of millions of users. Equipment needs to meet local or regional regulations and needs to be safe to use. Operations need to run efficiently and infrastructure needs to be safe and of good quality. SGS offers you worldwide support with the development, testing, commissioning, and operation of transportation systems, be it airports and aircrafts, railways and trains, ports or other public transport. We assist public and private investors and operators in all technical matters, perform geotechnical studies, control and supervise construction as well as test and inspect all kinds of equipment. Our experienced experts monitor and supervise safety and hygiene, periodically inspect tracks and vehicles and can assist in incidents or damage investigation.

OUR SERVICES A-Z

A

- AD-2000, Certification according to
- Alternating Current Field Measurement (ACFM)
- API Inspections – API-510, -570, -653
- As-build Documentation Verification
- ASME (American Society of Mechanical Engineers) Inspection
- ASME Authorised Inspection Agency
- ASME Certification/Stamping
- Asset Integrity Management (AIM)
- ATEX, Technical Consultancy, Zoning
- ATEX, Notified Body Services
- Audits (Second and Third Party, Technical, Notified Body, Vendor Rating and Assessment)
- Authorised Inspection Agency for ASME
- Authorised Inspection Agency for DECEX Brazil
- Authorised Inspection Agency for DOSH Malaysia
- Authorised Inspection Agency for Indian Boiler (IBR)
- Authorised Inspection Agency for MHLW Japan
- Authorised Inspection Agency for MOM (Ministry of Manpower) Singapore
- Authorised Inspection Agency for OSH New Zealand
- Automatic Ultrasonic Testing (AUT)

B

- Bank's Representative Services
- Bid Preparation/Support
- Bid Review for Technical, QA and Commercial Aspects
- Building Inspections, Design Appraisal, Materials Testing, Monitoring and Testing, Supervision
- Building Safety
- Building Services Engineering

C

- Calibration of measuring/metering and lab equipment
- Calibration of storage tanks, vessels
- CE Marking
- Certification Authority Approval
- Civil Construction Supervision, including Geotechnical and Geological Studies
- Claims Monitoring
- Coating Failure Analysis
- Coating Inspections
- Coating Laboratory Services
- Coating Specialist Solutions
- Commissioning of Installations
- Compliance Verification (Inspection, Audit, Testing, Re-calculations)
- Component inspections of boilers, heat exchangers, tanks, pumps and valves, pipes, compressors, turbines, electrical and control equipment
- 3D Computed Tomography (CT)
- Construction-Building Inspections, Design Appraisal, Materials Testing, Monitoring and Testing, Supervision
- Consultancy Services
- Contract Engineer Services

C

- Coordination Services (Inspections, Documentation Administration, Testing, Certification, Acceptance Testing, Commissioning, Maintenance)
- Corroscan/C-scan
- Corrosion Monitoring
- Cost Management
- Cost/Price review
- Cranes, Lifting and Hoisting Equipment – Design, Verification, Inspection, Risk Assessment, Testing

D

- Damage Assessment and Expertise
- Design Appraisal/Verification
- Digital/Computed Radiography
- Dispute Resolutions
- Documentation Administration Management
- Documentation Review
- DOSH Malaysia, Inspection according to
- Drawing of Technical Specifications
- Dye/Liquid Penetrant Testing (PT)

E

- Economic Due Diligence
- Eddy Current Testing, Electromagnetic Testing (ET/RFET)
- Electrical Equipment Verification/Inspection
- Electrical Installations, Calculation and Sizing
- Electrical Installations, Inspection and Verification
EN473 Examination Services
- Endoscope Inspection
- Environmental Audits and Consultancy
- Environmental Due Diligence
- Environmental Safety
- EPAL (European Pallet Association)
Pallet Inspections
- Equator Principles Verification
- Equipment, Verification of Conformity to Codes/Standards
- Expediting

L

- Laboratory Chemical Testing, Material Testing, Mechanical Testing, Metal Testing, Polymer Testing
- Leak Testing of Tanks and Pipelines
- Liquid Penetrant Testing (PT)
- Long Range Ultrasonic Testing (LRUT)
- LNG Industry Services
- Loading/Unloading and Transport Preparation Supervision

M

- Magnetic Flux Leakage (MFL)
- Magnetic Particle Testing (MT)
- Maintenance Management
- Maintenance Optimisation
- Manual Ultrasonic Testing (UT)
- Manufacturer Audits
- Market Assessment
- Mechanical Integrity Management System (MIMS)
- Mill Inspection
- MHLW Japan, Inspection according to
- MOM (Ministry of Manpower) Singapore, Inspection according to

N

- Non-Destructive Testing (NDT)
- Non-Destructive Testing (NDT) Training
- Notified Body Conformity Assessment
- Notified Body Services

O

- Offshore and Onshore Wind Farm Project Verification
- OHSE (Occupational Health & Safety, Environment) Services
- Oil Analysis
- Operational Integrity and Condition Assessments
- Operational Survey
- Owner's Representative Services

P

- Pallet Inspections, EPAL
- PED, Inspections and Audits
- Periodic Quality Controls
- Periodic Technical Inspections
- Permanent or temporary placement of technical manpower
- Pipe Mill Inspection
- Pipeline Inspection and Testing
- Pipeline Integrity Management (PIMS)
- Piping Inspection – API 570
- Plant and Equipment Condition Monitoring
- Plant Risk Integrity Management (PRIMA)
- Positive Material Identification (PMI)
- Prequalification of Suppliers and Sub-contractors
- Pre-feasibility Studies
- Pre-shipment Inspection
- Pressure Equipment Directive (PED, TPED, SPED), Notified Body Services
- Pressure Equipment – Audits, Inspection, Risk Assessment, Testing, Verification and Approval,
- API 510 Inspection, Suitability for Service Evaluations
- Product Certification
- Production and Prefabrication Control at Manufacturers' Facilities
- Project Development Plan
- Project Management/Coordination
- Project Monitoring
- Project Certification/Verification for Onshore and Offshore Wind Farm Projects

Q

- QSHE (Quality, Safety, Health, Environment)
- Quality Assurance/Quality Control (QA/QC)

R

- Radiographic Testing (RT)
- Rail Testing
- Regulatory Compliance Verification
- Reliability Availability Maintainability (RAM)
- Reliability Centred Maintenance (RCM)
- Repair and Replacement Process Monitoring
- Remote Visual Inspection, Endoscopy/Videoscopy
- Review of Design Drawings and Calculations
- Review of Shipyard Standards
- Review of Shop Drawings
- Risk Based Inspections (RBI)
- Rospotregnadzor: Sanitary-Epidemiological Conclusion Services
- Rotor Blade Inspection
- RTN – Permits to use – Industrial Safety approvals
- Russia: Certificate of State Product Registration
- Russia: Gospozhnadzor – Fire Safety Certificates
- Russian/CIS Certification
- Russian Statutory Licensing and Certification

S

- Saudi Arabia Import Certification
- SHEQ (Safety, Health, Environment, Quality)
- Ship Owner's Representative Services
- Shutdown Inspections
- Site Services (Supervision, On-site Testing Labs, Inspections)
- Specialised Non-Destructive Examination
- Start-up and Final Commissioning Supervision
- Statutory Inspections (Cranes, Lifting, Hoisting, Pressure Equipment, Electrical Installations, Lifts, Escalators)
- Steel Mill, Shop and Site Inspections
- Storage Tank Inspections
- Supply Chain Audits, Expediting, Loading Supervision, Shop Inspection, QA/QC, Vendor Surveillance

W

- Wind Farm (Onshore/Offshore) – In-Service Inspection
- Wind Farm (Onshore/Offshore) – Manufacturing Surveys
- Wind Farm (Onshore/Offshore) – Oil Analysis
- Wind Farm (Onshore/Offshore) – Project Verification
- Wind Farm (Onshore/Offshore) – Site Specific Verification
- Wind Farm (Onshore/Offshore) – Technical Due Diligence
- Wind Farm (Onshore/Offshore) – Vibration Measurement
- Witnessing Factory Acceptance Tests (FAT)
- Works Supervision

X

- X-Ray & Gamma Ray Testing (RT)
