SGS

GOST K CERTIFICATION

To gain access to the Kazakh market, many goods are required to be in compliance with the criteria of the GOST K Standards or safety regulations. It mainly concerns

- Food
- Textiles, cosmetics & toys
- Electrics & electronics
- Industrial equipment
- Telecom equipment
- Etc.

This conformity has to be proven by means of a **GOST K Certificate of Conformity**.

An original or certified copy of a GOST K Certificate is required for customs clearance at the border as well as for sale/marketing within the country. For industrial equipment it is also required at commissioning.

The certified product or its packaging should be marked by the **GOST K Mark of Conformity**.

PERMIT TO USE

In Kazakhstan many industrial equipment is subject to the approval of the Kazakh State Committee for Surveillance of Emergency Situations and Industrial Safety.

The Permit To Use is essential to obtain permission to put into operation such equipment as

- Lifting equipment
- Heat exchangers
- Burners and boilers
- Pressure vessels
- Compressors
- Etc.

A Permit To Use can only be issued on basis of an expertise executed by a Kazakh Expert Centre accredited by the Committee.

ROLE OF SGS

Since several years now, SGS has established a close cooperation with relevant Certification Bodies and State Authorities in Kazakhstan, by such ensuring the exporter to Kazakhstan

- Being assisted in his own language
- Transparency in procedures and pricing
- No delays at customs
- Local support – if required – by local SGS offices

ONE STOP SHOP

SGS offers access to similar certification systems in **Russia, Ukraine and Belarus**.
