**FSMA FSVP CERTIFICATION**

# **MAKING THE DIFFERENCE**

**HELPING FOREIGN FOOD SUPPLIERS DEMONSTRATE  
COMPLIANCE WITH FSMA**

QUALITY

The US FDA's Food Safety Modernization Act (FSMA) is changing the way businesses must think about food safety in their supply chains. FSMA demands a proactive approach to food safety from all stakeholders in the supply chain, wherever they are based in the world.

### WHAT IS FSMA FSVP CERTIFICATION?

Foreign suppliers exporting food to the US can demonstrate compliance with the requirements of FSMA with SGS's voluntary FSMA Foreign Supplier Verification Program (FSVP) certification scheme. FSMA FSVP certification also allows suppliers to simplify their auditing obligations with one comprehensive scheme, all fully accredited by the American National Standards Institute (ANSI).

The SGS FSMA FSVP certification scheme is built upon decades of global certification experience and industry best practices. The FSMA FSVP certificate is valid for 1 year and can be renewed annually.

### ONE CERTIFICATE: MULTIPLE BENEFITS

Working with multiple US importers may require multiple supplier audits. Simplify the process with one FSMA compliance audit – reducing audit fatigue.

FSMA FSVP certification also helps attract new customers in the US.

Working with a FSMA FSVP certified supplier will simplify the process for US importers, enabling them to reduce the time and effort required to verify supplier's compliance with the US regulations.

- Demonstrate compliance with FSMA
- Reduce audit fatigue
- Simplify the compliance process for your US customers
- Promote your compliance with an accredited certificate from SGS
- Attract new customers

### COMPLEMENTING SERVICES

SGS offers a comprehensive range of services to help foreign suppliers prepare for FSMA FSVP certification.

These include:

- PCQI and FSMA training – ensure your employees understand and implement Preventive Controls and other applicable FSMA requirements
- Technical services – product testing, environmental monitoring and label reviews to ensure your business and product labels are in compliance with all relevant US regulations

### TECHNOLOGY & INNOVATION

Innovation is at the heart of our business. New technologies deliver knowledge, insight, transparency and efficiency for our customers.

#### SGS Transparency-One

Manage risk, production and safety with SGS's digital supply chain solution Transparency-One.

### SGS Digicomply

Transform the big data of compliance information into user-friendly actionable knowledge.

### SGS BENEFITS

- 🌐 Global Network
- 🎓 Technical Competence
- 👤 Key account management
- ⚙️ Customized service
