

US has 5% of the world's population and produces 30% of the world's waste

HOW CAN YOU DEMONSTRATE ENVIRONMENTAL RESPONSIBILITY?

ENHANCE ENVIRONMENTAL MANAGEMENT WITH ISO 14001

BE THE BENCHMARK

ISO 14001 Environmental Management Systems (EMS) certification helps you stand out from the competition. It shows existing and potential customers your commitment to complying with environmental standards and supports you in reducing the environmental impact of daily operations.

The standard sets a basis for how to manage the environmental performance of your business activities more effectively, considering risk associated with threats and opportunities, significant environmental aspects, and compliance obligations.

HOW THE CERTIFICATION PROCESS WORKS

WHY SGS?

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognised as the global benchmark for quality and integrity. With more than 95,000 employees, SGS operates a network of over 2,400 offices and laboratories around the world.

Enhancing products, processes, systems and skills is fundamental to your ongoing success and sustained growth. We enable you to continuously improve, transforming your products, services and value chain by increasing performance, managing risks, better meeting stakeholder requirements, and managing sustainability.

With a global presence, we have a history of successfully executing large scale, complex international projects. Our people speak the language, understand the culture of the local market and operate globally in a consistent, reliable and effective manner.

THE BENEFITS OF ISO 14001

Some of the benefits of ISO 14001 certification are:

-  Better understanding of the organization and its context
-  Better understanding of the needs and expectations of interested parties
-  Improving leadership and internal & external communication
-  Continual improvement in environmental performance
-  Reduction of risks of incidents or penalties and avoids litigation
-  Minimization of energy and resource usage reducing operating costs
-  Increasing stakeholder confidence
-  New business opportunities with environmentally aware customers

SGS is the most widely accredited certification body and the global leader in ISO 14001 certification. A valid ISO 14001 certificate shows your organisation follows the most internationally recognised environmental management principles.
