SGS

As the leader in professional training, we draw on our years of worldwide experience to provide effective learning and development opportunities. We make a difference to individuals, teams and businesses, nurturing talent and enabling continuous organizational progression. As is ensuring you and your team have the skills to achieve your goals effectively. With help from the SGS, you and your business can gain the knowledge you need to continually adapt the way you work, keeping ahead of market developments and enabling you to continuously develop all aspects of your career and organisation. Whatever your level of knowledge, our experts will support you in progression to the next level. Wherever your organisation is in terms of development, we give you the knowledge to develop further.

SGS Trainings

Our experts deliver high quality professional training across a wide range of subjects and industries, providing detailed information and guidance relevant to all stages of your value chain. Our courses fall into three broad areas.

Management systems and standards training

SGS Academy training gives you a complete understanding of the essential requirements of management systems and standards. Whether you are a lead auditor or executive, interested in a particular ISO Standard or management system, we deliver courses that suit all audiences from foundation to accredited (IRCA) Lead Auditor courses that meet Certification Body training criteria requirements. We also provide training on non-accredited management systems processes such as awareness programs, Implementation trainings and Internal Auditor trainings.

Customize training

Our courses are designed to help you and your team work more effectively internally and externally by catering customize training solutions for your training needs. We all approach training in different ways and have to fit in our professional development around our day-to-day responsibilities. With this in mind, our training solutions are offered in a variety of delivery formats so that you can choose those that are best suited to your individual requirements and the needs of your organization. Our experts deliver face-to-face training in the form of public courses where you can join your industry peers and through in-house courses designed to meet the specific needs of your organization.

Industry specific technical training

SGS Academy's industry specific training provides you with development solutions applicable to your field of expertise. Expert information and guidance are essential to ensure you and your organization adhere to necessary duty-of-care, laws, regulations, standards, and policies. Our solutions give you the knowledge you are in full compliance with food, quality, health and safety, sustainability, integrity, environmental guidelines, and regulations.

Public courses

Joining our face-to-face public courses gives you the opportunity to meet with colleagues from related industries and discuss course topics with others who have identified the same types of issues. As a result, you can share and gain best practice knowledge, not only from our SGS experts, but also from those in similar organizational roles. Throughout all discussions our experienced and knowledgeable tutors help you to evaluate your insights so you are subsequently able to make considered decisions when approaching strategic changers within your business. Public courses are on fixed dates, please refer to our course calendar for more information

In-house courses

Running a standard or customized course at your premises allows you to shape the message and style of the presentation to suit the culture of your organization. It is the most convenient and cost-effective solution if you wish to train several staff in the same location, or when confidentiality is an issue. Once we have agreed the dates and location for your training course, our experts work with you to identify and evaluate your learning objectives and to customize the course content to ensure they are met.
