

Pulses

Trusted.
Independent.
Committed.

SGS

We work for you to protect your interests and reduce your risk, ensuring your commodities meet global standards for quality and excellence.

Testing

Secure quality and safety of your supply chain. We have the state-of-the-art equipment to meet all your testing needs, offering all the mandatory analyses required by different standards at various origins. Upon request we can also test the following:

- Moisture
- Purity
- Impurities
- Defective seeds (color, damage, skin, wrinkles...)
- Pesticides

Inspection

We help companies to deliver pulses products that consistently meet high quality standards as well as health, safety and environmental compliance requirements by supplying the following services:

- Vessel/container cleanliness
- Precise weighing
- Packing and marking verification
- Sampling at loading/discharge
- Tally of the bags for bagged cargo
- Draft survey
- Supervision of loading/discharge
- Certificate issuance

Stock management

Ensure that damage, loss or other issues are identified – and fixed – as soon as possible. With our range of customizable stock management solutions you can protect your trading operations from unexpected challenges, while our IoT-based technology, Smart Warehouse, will help you to monitor your commodities in real-time.

Guarantee solutions

Our comprehensive portfolio of guarantee services eliminates your risks relating to issues with quality and quantity. These services include:

- Full Outturn Guarantee (FOG) and Full Outturn Quality (FOQ): SGS assumes the responsibility for weight and quality differences between loading and discharge
- Comprehensive Cover (CC): SGS arranges marine insurance coverage
- Rejection Guarantee: SGS assumes any costs incurred by discharge port authorities rejecting a shipment

We are SGS – the world's leading testing, inspection and certification company. Our global network of trusted and committed experts, operating within industry-leading facilities, will help you safeguard and strengthen your pulses trading operations.

Our certificates are recognized throughout the world by leading trade partners, banks and other financial institutions. SGS Secured Document – Blockchain registration gives you secure access to a document's history, enabling you to verify and authenticate its true origin.
