

LNG SOLUTIONS – VERIFYING OPERATIONS FROM END TO END

S

SOLUTION

SPECIALISED TECHNICAL SERVICES

VERIFYING QUALITY AND ASSESSING RISKS

THE PRODUCTION AND TRANSPORTATION OF LNG HAS A HIGH NEED FOR INSPECTION AND CONTROL

We provide independent inspection, testing, verification and specialised technical services to the LNG industry. Committed to adding value to our customers operations, we help them maintain their reputation for high quality products by reducing the commercial risks associated with the production and the transport of LNG.

Our expertise in this area includes production, ocean transport and custody transfer, liquefaction and regasification, shore and marine tank calibration and specialised training. With our global network of offices and laboratories around the world, we offer a global point of contact that can deliver locally, operating at all key LNG production and transfer facilities around the world.

Production Services

- Auditing metering systems
- Calibration checklist
- Geoscience services
- Geological analysis
- In-line analyser
- Instrument verification
- Laboratory outsourcing
- Mercury analysis and consultancy
- Mobile laboratories
- Petrophysical services
- Production accounting
- QA/QC audits of systems
- Recertify metering systems
- Reservoir fluids analysis

- Reservoir engineering services
- Safety auditing
- Start up testing
- Technician supply

Ocean Transport and Custody Transfer

- Calibration GC analyser
- Consultancy
- Custody transfer
- In-line sampling verification
- Instrument verification and calibration
- LNG composition change database
- LNG ship database
- Plant and terminal operations

Liquefaction and Regasification Services

- Instrument verification and calibration
- Lab testing/outsourcing
- Mass balance audits
- Mobile laboratories

Calibration

- Shore and marine tank calibration

Training Services

- Operational staff
- Operational management
- Tailor-made training

We are ISO 9001 and SCC** certified and our staff is regularly trained on the latest national and international transport legislation as well as safety and environmental standards and issues.

WHY SGS?

SGS is the world's leading inspection, verification, testing and certification company. Recognised as the global benchmark for quality and integrity, we employ over 64 000 people and operate a network of more than 1 250 offices and laboratories around the world.

We are constantly looking beyond customers' and society's expectations in order to deliver market leading services wherever they are needed.

We provide innovative services and solutions for every part of the oil, gas and chemicals industry. Our global network of offices and laboratories and our dedicated team allow us to respond to your needs, when and where they occur. Our reputation for independence, excellence and innovation have established us as the market leaders in providing services that improve efficiency, reduce risk and deliver competitive advantage for you.
