COURSE DESCRIPTION

The objective of this course is to provide participants with an introduction to Risk Management Awareness. This day consists of tutor led presentations and workshops. On completion of this course you will receive an SGS Certificate of Attendance.

AUDIENCE PROFILE

This course is suited to anyone working with Management Systems requiring an awareness of Risk Based Thinking.

LEARNING OUTCOMES

- Have an understanding of risk based thinking
- Discuss and understand hazard identification and risk assessment (HIRA) as well as the types of risk assessments and the application thereof in the workplace
- Discuss quality risk management and risk management methodology
- Understand and discuss various risk analysis tools

BACKGROUND

The purpose of this course is to provide the learner with an overview of the purpose and requirements of a Risk Management System (RMS).

A well-functioning certified management system is a great start to building sustainable business performance. It can help you ensure on-time delivery, zero defects, and reduce waste, for example.

An occupational health and safety system helps you ensure worker safety, lower sick-leave and reduce number of accidents.

ADDITIONAL INFORMATION

This course does not meet the auditor transition requirements for IRCA.
