

Do you want to sell in Saudi Arabia?

AT SGS, WE CAN SUPPORT YOUR ACCESS TO THE SAUDI ARABIAN MARKET FOR ELECTRICAL AND ELECTRONIC (EE) PRODUCTS. TO REACH THIS MARKET YOU WILL NEED A SIRC – A SASO IECEE RECOGNITION CERTIFICATE – AND WE CAN HELP.

Only the Saudi Standards, Metrology and Quality Organization (SASO) can issue SIRC certificates, but we can act as an intermediary on applications, and support you through the process. This will smooth your route to market, saving you time, resources and minimizing the risk of failure.

Only the Saudi Standards, Metrology and Quality Organization (SASO) can issue SIRC certificates, but we can act as an intermediary on applications, and support you through the process. This will smooth your route to market, saving you time, resources and minimizing the risk of failure.

WHICH PRODUCTS FALL WITHIN SCOPE?

As of November 1, 2021, the following products require a SIRC certificate:

- Chargers for tablet
- Smart watches/smart band
- TVs and monitors
- Dishwashers (for household use)
- Wireless headphones
- Laptop chargers/Power adapters
- PV products (PV panels, inverters, PV electric cables)
- Lighting products (lamps, control gears, luminaires)
- Electronic cigarettes
- Electric kettles
- Coffeemakers (for household use)
- Deep fryers
- Electric cables
- Video game consoles and accessories
- Shavers
- Desktop computers
- Miniature circuit breakers
- Molded case circuit breakers
- Mobile phone charger cables

WHAT DOCUMENTATION IS REQUIRED FOR A SIRC?

You will need a number of documents for each EE product. We can help you identify and collate all the correct documentation, which could include:

- Manufacturer industrial license
- Valid Commercial Registration of SA importer (issued by the Saudi Ministry of Commerce and Industry (MOCI))
- Letter of undertaking and acknowledgment (see attached template), which must be completed and signed by an authorized person, printed on the manufacturer's letterhead with a company stamp
- Product photo
- Manufacturer Declaration of Conformity (see attached template), which must be completed and signed by an authorized person, printed on the manufacturer's letterhead with a company stamp. The "Manufacturer" is the manufacturer mentioned in the CB test certificate/CB test report
- Importer Declaration of Conformity (see attached template), which must be completed and signed by an authorized person, printed on the manufacturer's letterhead with a company stamp
- Instruction Manual in English and Arabic, including details of the brand and model/s
- IECEE CB Test Report – original test report, plus amendment/modification test reports according to the latest IEC standard, including Saudi Arabia specifications
- IECEE CB test certificate (IECEE CBTC) according to the latest IEC standard and issued by a laboratory operating under the IECEE CB scheme (original test certificate plus amendment/modification test certificate)
- PLUG Test Report – according to SASO 2203:2018 (for electrical and electronic appliances with Plug for connection to mains supply)
- EEL CERTIFICATE – for lighting products
- CITC Certificate – for mobile phones
- Authorization letter to SGS (as the facilitator on behalf of the applicant)
