

SGS ELECTRO MEDICAL DEVICES SERVICES

ATLANTA
UNITED STATES

INTRODUCING SGS ATLANTA LAB

SGS's Atlanta lab was founded in 1880 as the US Testing Company and became part of the SGS Group in 1963. Today the lab serves the following key competences for electro medical devices:

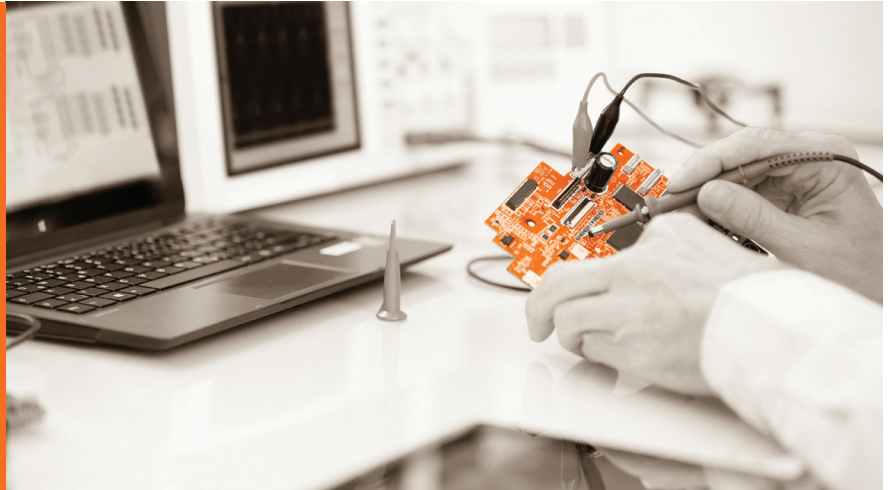

- Product safety
- Electromagnetic compatibility (EMC)
- Wireless testing & certification
- Battery testing

LABORATORY FEATURES

This lab serves as the gateway for electro medical device services in the USA and Canada. Furthermore, the facility incorporates test and simulation labs covering an area of more than 28,000ft² (2,600m²). Accreditations and approvals received by this facility include:

- ISO/IEC 17025, ISO/IEC 17065
- Notified Body for EMC and R&TTE Directives
- IECEE CB Scheme
- US OSHA NRTL
- Standards Council of Canada (SCC) testing & certification organisation
- Field Inspection Body for onsite inspection of medical devices

SGS

KEY SERVICES

- EMC testing e.g. IEC EN 61326, IEC EN 60601-1-2 (10m chamber, 3m chamber)
- Product safety testing e.g. IEC EN 60601-x Series, IEC EN 61010-x Series
- Environmental simulation testing
- RoHS & WEEE
- Notified body (NB) and quality management systems (QMS) ISO 9001, ISO 13485, CE 0120, CE 0598
- Stability testing of packages and materials
- Our technical team has experts in all Electro Medical Device Testing services, for example X-Ray Testing, as well as all other services needed for product safety.
