Nonconformities detailed here shall be addressed through the organization's corrective action process, in accordance with the relevant corrective action requirements of the audit standard, including actions to analyse the cause of the nonconformity and prevent recurrence, and complete records maintained.

- Corrective actions to address identified major nonconformities shall be carried out immediately and SGS notified of the actions taken within 30 days. An SGS auditor will perform a **follow up visit** within 60 days to confirm the actions taken, evaluate their effectiveness, and determine whether certification can be granted or continued.
- Corrective actions to address identified major nonconformities shall be carried out immediately and **records with supporting evidence sent to the SGS auditor** for close-out within 60 days.
- Corrective Actions to address identified minor non conformities shall be documented on an action plan and sent by the client to the auditor within 60 days for review. If the actions are deemed to be satisfactory they will be followed up at the next scheduled visit
- Corrective Actions to address identified minor non-conformities have been detailed on an action plan and the intended action reviewed by the Auditor, deemed to be satisfactory and will be followed up at the next scheduled visit.
- Appropriate immediate action taken in response to each non-conformance as required

Note:- Initial, Re-certification and Extension audits – recommendation for certification cannot be made unless check box 4 is completed. For re-certification audits the time scales indicated may need to be reduced in order to ensure re-certification prior to expiry of current certification.

Note: At the next scheduled audit visit, the SGS audit team will follow up on *all* identified nonconformities to confirm the effectiveness of the corrective actions taken.
